ELECTION RESPONSE

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

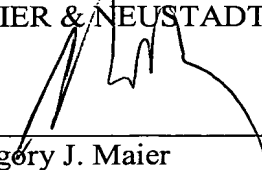

In response to the Office Action dated August 10, 2006, applicants herein elect Group II of claims 8-13, drawn to a process for air-cooling and tempering a glass sheet, classified in class 65, subclass 114.

This election is being made with traverse. Any proper search for the elected claims will also necessarily require a search through the appropriate classes and subclasses for the other claims. It would therefore not constitute a significant additional burden on the Office for the examiner to examine all of the claims in the present application, and so the restriction is believed to be unjustified.

Favorable and timely consideration of the elected claims is requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
